» Select your color(s) from this electronic brochure.

Digital samples are as close as possible to actual powder colors within the limitations of on-screen reproduction. Screen type, settings, and viewing angle may affect color representation.

» Hope's will provide physical color chip(s) for final approval.

» Custom color matching is available upon request.

5-Star Rated by PPG

Enhanced Aesthetics with Advanced Performance

Hope's Windows sets the bar for product performance by partnering with PPG Industries, the world leaders in coating technology. This alliance enables Hope's to provide a finishing system that offers unrivaled protection and durability for our steel windows and doors.

Exterior Grade. PPG's Envirocron™ Polyester Powder Coating Technology presents outstanding physical properties that enable Hope's steel products to withstand prolonged periods of outdoor exposure including weatherability, corrosion resistance, chemical resistance, heat resistance, impact resistance, hardness, flexibility, and adhesion.

Commitment to Sustainability. Our powder coatings have zero solvent emissions and ultra-low VOCs, making them an excellent choice for environmentally conscious architects, builders, and owners.
